FOLD CUPS ON TOP

6

If you rarely use some of your old swimwear, you can get rid of a few pieces to make more space for more important clothes. There are many variations of swimwear. I have added the most difficult folds to your worksheet.

ACTION STEPS:

Clean out and count the number of bikinis and swimsuits in your wardrobe (swim trunks if you're a man) .

If you have old, dusty swimwear, consider throwing it out.

Use the Block Rolling Techniques to roll and organize your swimwear. Women should put theirs in zip-lock bags for better organizing and accessibility.

SWIM TRUNKS

Tight Roll
3/3

Swimtrunks only take up a moderate amount of space once they are Block Rolled in your dresser. Depending on seasonality, considered cleaning out a few, or putting them in less convenient drawers.

This is one of the hardest Block Rolls so take your time.

ACTION STEPS:

Take out, and count the number of swim trunks in your dresser.

If they see little use, consider throwing out some. Consider climate, use, and age.

Use the Block Rolling Techniques to roll and organize your swim trunks.
